YOUR COMMUNITY, YOUR HOME

Our vibrant senior living community nestled in the San Gabriel Valley is devoted to providing a safe, comfortable, loving environment that allows seniors to enjoy the lifestyle they want. With three care levels all on one campus — assisted living, memory care, and skilled nursing — our residents and their loved ones enjoy peace of mind knowing they never need to move again.

Bayshire San Dimas combines state-of-the-art care programs with genuine love and compassion from the finest caregivers in the industry. As a locally owned and operated community, we take great pride in the exceptional care, real relationships, and personal kindness that allow our residents to feel right at home.

REDISCOVER YOUR INDEPENDENCE

At Bayshire San Dimas, our greatest desire is to help our residents live well and age better. With personalized care plans, an exciting events calendar, and daily interactive activities tailored to their interests, our residents are able to thrive in their new environment.

We offer endless opportunities for stimulating the mind, body, and soul. Whether our residents prefer social outings, enjoying a fantastic restaurant-style meal, or simply soaking up the fresh air and sunshine, we are proud to honor their personal histories and play a part in continuing their stories.

A PLACE OF COMFORT AND ENRICHMENT

We know that moving to a senior living community can be a difficult transition. Bayshire San Dimas's care team is here to help eliminate any stress and ease our residents and their loved ones into a new phase of life.

Our round-the-clock care staff with nursing oversight are always attuned to our residents' needs, no matter how small. Routine dining, housekeeping, laundry, and linen services remove the hassles of everyday life, allowing our residents to focus on the things that really matter — like grabbing coffee with a new friend, diving into a new hobby, or exploring a talent they never had time for before. Thanks to our integrated Sagely App, families and friends have never been more connected to their loved ones. And of course, Bayshire San Dimas is pet friendly. We would never separate best friends!

A CONTINUING CARE RETIREMENT COMMUNITY

As a continuing care retirement community (CCRC), Bayshire San Dimas offers three levels of care on a single campus: assisted living, memory care and skilled nursing. Residents can easily transition from one care level to another as their healthcare needs change. This offers both residents and their loved ones the peace of mind of knowing they never need to move again.

All residents are provided with an emergency response pendant, that alerts our care team when they have a need. Our resident care staff with nursing oversight are on-site 24 hours a day, 7 days a week, always looking for ways to show our residents that they are loved and supported. We don't see that as a duty — it's who we are.
